Projects and Customers

Besides the transportation itself, UNITRANS offers full set of services that accompany transportation: packing, insurance, customs clearance and warehousing.

Orders Comparative Growth Rate

UNITRANS is aimed to meet interests of the customers in spite of the frequency and the volume of their orders.

Due to it Unitrans was able to increase the volume of the shipments after the 2008-2009 crisis.

The opportunity of consolidated transportation allows handling of both: small and big orders.

Among company's customers are commercial enterprises, embassies, NGOs, state and international organizations.
