

UNITRANS ԵՈՒՆԻՏՐԱՆՍ

International Freight-Forwarding Company
Միջազգային բեռնափոխադրող ընկերություն

Unitrans is part of a group of the companies who have about 50-year history in providing comprehensive integrated logistics.

Armenian branch was established in Yerevan in 1995. The founding philosophy has been a commitment to providing customers with a superior level of service at highly competitive rates. This approach, combined with business ethics and integrity, has enabled consistent company expansion over the full spectrum of transport services and products.

Herewith we would like to share our experience with your esteemed company. Please, kindly let us know, if we may provide you additional documentation.

Innovative concepts and new logistic solutions are implemented consistently to ensure safe and effective cargo movement in the region. The services offered by UNITRANS Yerevan are aligned to the markets in which it operates, and can be tailored to the individual needs of the clients. Alternative routes and multi-modal transport options are advised on all cargo movements on a routine basis.

Development prospects

- Enlargement of the existing network and business contacts to extent the operational geography and provide higher possibilities for transportation to CIS and Asian countries.
- Further investigation of the transportation routes as well as improvements in management policy to achieve shorter transit time and to provide significant cost savings.
